Pastor Jim Cecy had been my Pastor, Counselor, and friend for over 34 years. He is a talented Pastor, Teacher and Counselor who lives the life he preaches. I am a retired California Highway Patrolman of 29.5 years and have benefitted from Jim's teaching. My wife and I attended several police couples' conferences along with 40 other couples at Hume Lake Christian Camps. Jim served as a keynote speaker at one where he talked about the aspects of police work and the effect on our wives and families. During that weekend he counseled couples working through relationship issues. He has a heart for law enforcement officers and military personnel and their families.

In October of 2003 I went on a 10-day teaching mission with Jim and other Law Enforcement Professionals (LEPs) to a city outside of Johannesburg, South Africa. There Jim became the main speaker of the Pan Africa Christian Police Associations Conference (PACPAC) and taught over 100 LEPs from over 25 countries. Jim also counseled and mentored several people during the conference.

Jim is recently retired from his church in Fresno, California, which is allowing him to continue to write books and speak at conferences. Jim draws from his knowledge of Scripture as well as business ethics and morals in his teaching. He is passionate about Jesus and uses his knowledge and experience of over 50 years in ministry and education to communicate with people all over the world. I highly recommend him as a speaker, teacher, and counselor to law enforcement and military personnel and their families.
