

To Whom it May Concern,

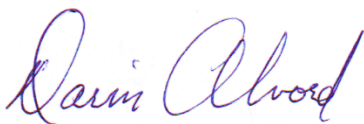

I am Dr. Darin J. Alvord, Director of Global Radio Ministries, retired Chief Engineer and former major shareholder of KG Communications. I have also served as Chief Technical Officer or President of other past businesses providing wireless business communication services. I am also a member of Campus Bible Church of Fresno, California.

I am writing in recommendation of Dr. James M. Cecy and his teaching of Ancient Business Principles from the Wisdom Literature of the Bible.

The Bible's teaching concerning business principles is time-tested, rock solid and dependable. Equally important, Dr. Cecy is an excellent teacher and communicator, known in the Fresno area, across the country, and in many other countries. This combination of a wellspring of trusted knowledge, reliable principles and practical, expert delivery of them is of high value to any organization, especially one desiring to gain an advantage in today's competitive business environment. The very heart of the curriculum is wisdom from the Creator of the universe. Jim Cecy has been studying, writing and speaking from this incomparable source for over fifty years.

Having worked together with Pastor Jim for over six years and studying his teaching from the past 35 years, I can unequivocally recommend to you his capabilities and the efficacy of his teaching. Your organization will benefit noticeably and materially from the teaching and encouragement received.

Sincerely,

Darin J. Alvord  
Director, Global Radio Ministries
